

NS-P236 Digital Home Cinema 6.1-Channel Speaker Package

Yamaha Introduces the NS-P236 Digital Home Cinema 6.1-Channel Speaker Package Featuring Excellent Sound Quality in a Compact Design.

Yamaha Corporation announces the release of a new speaker package designed for home cinema use. The NS-P236, specifically for 6.1-channel systems, combines a neat, compact design with excellent sound quality.

Since the release of “Star Wars Episode 1” and other movies available in 6.1 channels, this format has become very popular for the outstanding “depth” and “presence” of its sound. As a market leader, Yamaha offers a full line of 6.1-channel Home Cinema Amplifiers and Receivers. The NS-P236 is designed to perfectly complement these models, particularly in the affordable price range.

The NS-P236 Speaker Package consists of two main and two rear speakers, a centre speaker, a rear centre speaker and a subwoofer. The main, rear and centre speakers feature an acoustic suspension design, dual 5cm full-range drivers, 100W maximum power handling capacity, and magnetic shielding for placement near a TV. The subwoofer takes advantage of Advanced YST (Yamaha Active Servo Technology) to deliver powerful bass response from a compact cabinet.

NS-P236 Main Features:

- Seven-speaker package for full enjoyment of movies in 6.1-channel formats.
- Package includes main L/R speakers, rear L/R/C speakers, centre speaker and subwoofer.
- Excellent sound quality and smart, clean design in compact sizes.
- 100W (max.) high power handling capacity.
- Dual 5cm (2”) full-range drivers for high sound quality (centre and 5 satellites)
- Advanced YST subwoofer for deep, powerful bass.
- Magnetic shielding allows placement of all speakers near a TV.

Digital Home Cinema 6.1-Channel Speaker System

NS-P236

Compact, Complete Digital Home Cinema 6.1-Channel Speaker Package.
Excellent Sound Quality and Smart, Clean, Matching Design. Ideal Combination with Yamaha
Mid-Range Digital Home Cinema Receivers.

Realizes the Full Potential of
6.1-Channel DVD Sources

The Convenient, Contemporary Way to Begin Enjoying the Full Benefits of 6.1-Channel Home Cinema Entertainment.

- Excellent sound quality and smart, compact design
- Advanced YST subwoofer for powerful bass response
- Dual 5cm (2") full-range drivers for high sound quality (5 satellites and centre)
- Flexible placement
- Magnetic shielding allows placement near a TV.

NS-P236 Main Specifications

- Package Includes 5 Satellite (Main Left/Right and Rear Left/Right/Centre) and Centre Speakers and Subwoofer
- Advanced YST (Advanced Yamaha Active Servo Technology) Subwoofer for Powerful Bass Response
- Magnetic Shielding Allows Placement Near the TV (All Speakers)
- Wide Range System Frequency Response (30 – 25,000 Hz)

5 Satellite Speakers (Main L/R and Rear L/R/C)

- Acoustic Suspension Design
- Dual 5cm (2") Full-Range Drivers
- Input Power (Max/Nominal): 100 W/30 W
- Sensitivity: 86 dB/2.83 V/m
- Impedance: 6 ohms
- Dimensions (W x H x D): 72 x 164 x 111 mm; 2-13/16" x 6-7/16" x 4-3/8"/unit
- Weight: 0.9 kg; 2 lbs./unit

Centre Speaker

- Acoustic Suspension Design
- Dual 5cm (2") Full-Range Drivers
- Input Power (Max/Nominal): 100 W/30 W
- Sensitivity: 86 dB/2.83 V/m
- Impedance: 6 ohms
- Dimensions (W x H x D): 300 x 72 x 110 mm; 11-13/16" x 2-13/16" x 4-5/16"
- Weight: 1.2 kg; 2.7 lbs.

Subwoofer

- Advanced YST for Powerful Bass Response
- Output Power: 50 W (5 ohms) [US and Canadian models: 55 W]
- 16cm (6") Multi-Range Driver
- Auto Standby with Sensitivity Selector
- Two Input Connections: Speaker Level or Line Level (pin jack)
- Dimensions (W x H x D): 200 x 365 x 375 mm; 7-7/8" x 14-3/8" x 14-3/7"
- Weight: 8.5 kg; 18.7 lbs.

NS-P236

Digital Home Cinema
6.1-Channel Speaker
Package

- The NS-236 is also offered with a silver and black finish in some areas.

Designed for Use in 6.1-Channel Home Cinema Systems

This speaker package is designed for use in a 6.1-channel (7-speaker) system. This configuration allows Dolby Digital and DTS movie sound formats to be enjoyed at their full potential. The speakers' high performance capabilities ensure accurate reproduction of DVD and other high quality sound sources, as well as of Yamaha's dynamic and realistic CINEMA DSP sound.

The NS-P236 6.1-Channel Speaker Package consists of 5 satellite (main L/R, rear L/R, rear centre), centre and LFE (low frequency effect, i.e. subwoofer) channel speakers.

Enjoy Home Cinema Surround Sound at Its Best with an All-Yamaha System.

If the NS-P236 speaker package sounds like a good idea, wait until you hear it matched with a Yamaha Home Cinema Amplifier or Receiver and DVD Player. These components give you the unique sonic benefits of CINEMA DSP and a wide range of music and movie surround programmes, plus the full 6.1-channel Dolby Digital EX or DTS-ES movie sound experience. With an all-Yamaha system, you get top quality sound, easy connections, and stylish components that look good in any setting.

● 6.1-Channel System

Optional Speaker Stands: SPS-80

650–900 mm (25-5/8"–35-1/2") Height Adjust
Not available in some areas.

Good Speakers Are Important for Good Home Cinema.

Main Speakers

Required to handle most of the sound output, these speakers require excellent sensitivity, frequency response and dynamic range.

Centre Speaker

The centre speaker delivers most of the dialogue, so high clarity output is vital to movie enjoyment.

Rear Speakers

The quality of the surround sound experience depends on the quality of the rear speakers. Yamaha ensures that they perform up to high standards.

Rear Centre Speakers

The NS-P236 includes a rear centre speaker for reproducing this channel in Dolby Digital EX and DTS-ES 6.1-channel

formats.

Subwoofer

Because good bass response is necessary for enjoying movie sound, Yamaha Advanced YST subwoofers are ideal for use in digital home cinema systems.

High Sound Quality Speakers

5 Satellite Speakers and 1 Center Speaker

High Performance Dual 5cm (2") Full-Range Drivers

These speakers use high quality parts to achieve excellent performance. They have 45mm (1-3/4") dual ferrite magnets with shielded cases for maximum power and copper center pole caps for low distortion. Kapton bobbins contribute to high S/N ratio. Unwanted vibrations are prevented by a heavy-duty steel frame and a parallel-surface cabinet design. Even the wiring is an anti-resonance type.

Subwoofer

Advanced YST for Powerful Bass Response

Advanced Yamaha Active Servo Technology (Advanced YST) is a unique system in which the speaker and amplifier work together to cancel out impedance so the speaker unit has a perfectly linear motion. Advanced YST helps to ensure the highest levels of sound pressure and overall performance.
